INTRODUCTORY.

THE CAMBRIDGE DIRECTORY for 1882 has been prepared with the greatest care, as usual, and we trust that all who may have occasion to refer to it will find it so nearly perfect, that our intention to have it a model directory, shall be fulfilled.

Each year adds to the expense and labor of publishing, and the steady increase of names from year to year shows that not only is our work well and faithfully done, but that our city is rapidly growing in population and wealth. When the time shall come for rapid transit between Cambridge and Boston, and the projected bridge built to connect us with the Back Bay district, our growth will be more rapid still, and the city even more prosperous than now.

For the support we receive from the business men of Cambridge, as well as the citizens who do business in Boston, we are under many obligations; also to the officers of the various societies and institutions for information furnished us, we present our thanks.

The following shows the increase in names over last year:

Names in Directory, 1881,	19,786
" " " 1882,	20,450
Increase,	664

We remain, very respectfully,

W. A. GREENOUGH & CO.,

INSTRUCTION TO KEY HOLDERS.

Alarms are to be given from the box nearest the location of the fire.

To give an alarm, open the door, pull the hook to the bottom of the slot once, and let go.

Each box contains a small bell which, if heard before you pull, indicates that the alarm has been previously given. Any person listening at a box will learn the number of the box from which the alarm was given. For instance: if an alarm proceeds from box 36, the bells and gongs attached will strike three, then after a short pause six consecutive blows, thus: III—IIIIII.

Don't give an alarm for a fire seen at a distance, unless assistance is called for.

Citizens are earnestly requested to inform themselves where keys to the signal boxes are kept; signs, suitably inscribed, being placed over each box, giving the requisite information.

THOS. J. CASEY,
Chief Engineer Cambridge Fire Dept.
